

DRIFT

Take control of your ideas.

2022 Review

2022 has been an extremely impactful and enjoyable year.

The different types of organisations I have supported is amazing and those people who run the organisations are deserving of greater recognition and investment. They are so important in making our communities stronger and better places to live.

Quotes

"I really appreciated your ideas, support and insight, plus your experience in many areas. The instant email covering our sessions and the sending of resources was extremely helpful."

"This service has been very vital for our organisation and its survival. Paul has helped us recognise that we need to change with the times and that we all need to do this together in order to grow and develop as an organisation to meet the changing needs of our community as a whole."

Quotes

"Reliability, honest, friendly, a joy to work with."

"Very quickly you learnt and responded to my processing and my way of approaching things, and you put up with my brain!"

FUTURE GOALS

What to expect in 2023:

- Continue to provide advice, mentoring and capacity building support to new and established organisations and individuals
- Working to put solar panels on businesses and community spaces
- Continue to do more work in the environmental / renewable energy sector
- Support groups to shout about their impact

helping people make the world a slightly better place!
